

GDPR Compliance

EMI Research Solutions works to ensure it and its partner network maintain GDPR compliance for May 25, 2018 and beyond.

✔ OUR COMMITMENT TO GDPR

We are working hard to prepare for the EU's General Data Protection Regulation (GDPR). We are working with our partners to implement strong privacy protections that reflect their guidelines. We are committed to complying with the new legislation and will collaborate with partners throughout this process to ensure personal data privacy.

✔ PARTNER SELECTION

In addition to our own internal preparedness, the key to our preparedness for GDPR is working only with partners that are GDPR-compliant. We will only work with partners that are compliant and have provided strict GDPR processes by May 25. We will monitor all projects to ensure each study is compliant to GDPR and other regulations.

✔ INCIDENT RESPONSE

We will promptly inform you of any incidents involving any respondent data from our partner network. We also pledge to continually update and invest in threat detection and other technologies that will help us prevent and respond to any data or GDPR breaches.
